CITY OF VERNON

HEALTH DEPARTMENT FILMING REQUIREMENTS

The City of Vernon Health Department is responsible for the health and public safety of its visitors and citizens. Production companies must comply with all codes governing food service, hazardous materials and all health standards in providing the appropriate number of restrooms, and sanitary conditions.

All service providers must display a current City of Vernon Health Permit, documentation of food handler certification for food handlers working at the filming site as well as a copy of the most current routine inspection report conducted by the City of Vernon for the food provider. Food Vendors without valid documentation must apply for a new Vernon Health Permit with Vernon City Hall. Annual or one day permits are available. Additional items may be required at that time.

The following guidelines will be evaluated when reviewing a permit application for approval. Health Department forms will be attached to the application by a FilmLA coordinator for Health Department review and approval, as part of the process to obtain a permit approval for filming.

Restrooms: Adequate restrooms shall be provided or made available to facilitate the crew on site within 200 feet of the food service. Any additional mobile trailers used must have water for hand washing. "Port-a-potties" are not allowed.

Solid Waste & Trash: All solid waste and trash generated shall be properly removed and disposed of. Any debris generated from the building of sets, shall be recycled whenever possible.

Food Service: All food facilities serving food shall obtain a valid Food Health Permit prior to serving food. If a mobile food facility or mobile food preparation unit is used, it must first pass inspection at the City of Vernon. Please allow enough time for this process, in advance of the scheduled filming time. Call the department for details. Only a health permit from the City of Vernon is valid. No other jurisdiction's permit is valid within the City of Vernon. A copy of the current local health permit shall be submitted along with a copy of the latest routine inspection report, a copy of the commissary health permit and last routine inspection conducted within the previous 90 days, the Food Handlers/Managers Certification for the "person-in-charge" food worker and a copy of the proposed menu. Also include a map/sketch of the area showing where the food service will be located, and indicate the distance from approved restroom facilities. Please also provide a description of how the food will be prepared and served. Please note that buffet style will require the use of sneeze guards. If you are using local restaurants to supply limited food service, please provide the name and address of facility to be used.

Craft Service: A health Permit must be obtained for all food service. Provide a name and telephone number of the company/person providing service. Craft services are restricted to serving non-perishable, single service, individually wrapped and labeled foods. No food preparation is permitted (sandwiches, smoothies, etc.) A description of the food service process/procedures must be included.

Hazardous Materials: No hazardous materials or wastes shall be used or generated unless approved by this office in advance. A local permit allowing use of hazardous materials must be obtained prior to approval.

Film permits that address each concern in the manner specified are given approval by our department. Film permits not requiring any of the specified items must state that they believe they are exempt and explain why they are not required to obtain the health permit for the specified area.
